GENDERPOO is the name of an art+activit project i started some years ago. Wanting to denounce bi-gender and cisgender supremacist system and fighting for gender-neutral WC at first, this project has evolved into a larger anti-oppression one. The aim of it is to show, through playing with the symbolic of WC signs, different people who are being constantly invisibilized or ignored by racist, heteronormative, classist, ableist, sizeist puritan western society. But this is not a victimization. This is a celebration of our struggles and our voices.
The list of Genderpoo signs is growing day by day and it will never be finished.

Genderpoo is an art installation happening in the WC. It consist on more than 50 different WC signs and an animation film. For a list of places where it's happening and some photos, go to end of this zine.

If you want to have it happening in an event, do not hesitate in contacting me: riotcoco@gmail.com
